Thermo Fisher Scientific
36 Parkview Avenue Highway Business Park
Centurion, Gauteng, 0154

To Whom It May Concern,

I am writing to express my sincere gratitude for the opportunity to apply for the bursary offered by Thermo Fisher. Having recently completed my Bachelor of Information Science (BIS) in Multimedia at the University of Pretoria, I am eager to continue my academic journey and specialise further in software development, UI/UX design and other emerging fields such as artificial intelligence or cybersecurity within the realm of information technology.

During my studies, I've developed a strong passion for these areas and have gained practical skills that I'm keen to deepen through further education. The financial assistance provided by this bursary would not only ease the financial burden but also allow me to focus wholeheartedly on my studies.

I am inspired by Thermo Fisher's commitment to scientific innovation and excellence. As a global leader in providing scientific solutions, Thermo Fisher's dedication to pushing the boundaries of technology resonates deeply with my own aspirations in the field of information technology.

In conclusion, I am genuinely enthusiastic about the possibility of being selected for the Thermo Fisher Bursary. I am confident that my academic achievements, coupled with my passion for information technology and proficiency in software development, make me a deserving candidate for this opportunity. Thank you for considering my application, and I look forward to the prospect of continuing my academic journey with your support.

Thank you for your time and consideration.

Warm regards,

Areyeng Mphahlele
